Profile

A passionate UX designer that strives in creating seamless user focused experiences through research & behavioral science. Able to conceptualize design strategies and implementations across all phases of human-centered design.

Experiences

Digital Designer | UC Denver Communication Dept.

09/2017 - Current (Part Time)

Responsible for UI compliance to WCAG's web accessibility guidelines, researching, updating and implementing new accessibility practices.

UX Research Intern | Ingersoll Rand

06/2019 - 09/2019 (Full Time)

Took ownership of an entire UX experience project, strategized lifespan of UX product from concepts to research to final high fidelity designs, lead multiple user testing sessions, and created open communication across stakeholders & developers.

UX/UI Research Assistant | Denver Art Museum

01/2019 - 05/2019 (Contractor)

Worked with and supervised by Bryan Leister for the exhibition: "Serious Play: Design in MidCentury America", responsible for designing interface layout and app elements, gathered and synthesized UX testings. Project was finalized and installed in both the Denver Art Museum and The Next Stage Gallery.

Education

University of Colorado - Denver

08/2017 - 05/2020

Pursuing: Bachelor of Arts, Digital Design
